

Going on holiday without insurance... Are you ready to take the risk?

Do you think you are covered? The credit card is a fake friend!
The insurance of the classic credit cards never cover the cancellation of your stay.

A child who gets sick, a problem with your car, a change in your holiday dates, lack of snow, so many unforeseen events that can force you to cancel your stay. A health problem during your stay?
If you cannot leave, you lose everything!

Refund prorata-temporis in case the stay has to be interrupted and in proportion to the number of person (s).
